

The Carlton

this season's new narrow toe
—a Florsheim style of the times.

The best dressed men are already wearing this shape—they know that the Florsheim style leader of the season is correct. We have it in the new dark Mahogany shade—it is the most distinguished looking, snappy style we have shown for sometime.

Free and Quick Delivery Phone 73-J.

The Thomas Barber Shop

244 Main Street.

Everything new. The most up-to-date Barber Shop in Yuma. Your patronage solicited.

At Honolulu the Union Oil Company of California which supplies much of the oil used in the islands, has sent notices to all of its customers in Hawaii, cancelling all time and quantity contracts and advising of an advance of two cents a barrel on the price of oil to be delivered hereafter. The company advised all customers who could possibly do so to convert their oil burners to coal burners.

A National Labor Memorial of Freedom and Peace is being organized in England and will be considered by a special conference between the Trade Union congress and the Labor party shortly. The idea is to raise 300,000 pounds to build a national headquarters for labor here as a memorial to trade unionists who have fallen during the war.

DON'T BE FOOLED BY HUN LIES

WASHINGTON, D. C., Feb. 28.—When the Germans let loose their poison gas and their liquid fire, the world, aghast, thought that the end had been reached.

It had not. For since that time have these same Germans found, and brought to use, even a still more lethal weapon—a weapon alike as veiled as it is deadly, as noxious as it is effective, and quite in keeping with the absolute negation of ethics, or morals, of decency, of humanity that has marked Germany's warfare from the Belgian atrocities down to the present time.

This new weapon is lies.

Thruout this country, as well as thruout the countries of the allies, Germany has flung her serried lines of German liars. All kinds of lies they tell, and in all kinds of ways, from the 42-centimeter lie that no one believes down to the dum-dum lie that makes a little hole going in and a big one coming out, and the chlorine lie that you don't even know is a lie until you find that you are overcome to a point where some friend has to give you the restorative of truth.

There is the direct lie, and the richichet. There is the nitroglycerin lie that explodes itself when it hits; and the time-fuse lie that doesn't go off for a week or so. There are lies on the land, in the air, on the sea, and under the sea.

And all these lies, effective and ineffective, big and little are directed against each of the allied nations to confuse, to distract, to puzzle, to delay, them in the successful prosecution of the war.

"The life of an aviator is only 30 hours in the air!"

And there are aviators who have been flying for three years!

"The navy is rotten with disease!"

Maybe so? But you must admit that when it comes to sinking submarines they do pretty well for a bunch of invalids.

"The camps are hotbeds of immorality!"

A lie on the face of it. If there were the inclination, there is neither the place nor the opportunity.

"This is not America's war!"

Whose war is it to defend the rights of America and Americans against submarines at sea and plots on land to present Texas, New Mexico, and Arizona to Mexico? To say nothing of blowing up American ships in American harbors, and American factories in American cities?

"All Germany wants is a just peace!"

That's all! A just peace that will give her Poland, Belgium, Alsace-Lorraine, Austria-Hungary, Turkey, Bulgaria, Servia, Roumania, control of the Baltic and the Black seas and ports on the Mediterranean. A just peace in which she can co-ordinate her new possessions preparatory to taking another wallop at the rest of the world! As her own people have already announced that it is her intention to do!

"England is making her colonies do all the fighting!"

England lost 120,000 men, her entire standing army—in the first few months of the war. And she is now holding the biggest part of the western front and sending troops to Italy besides!

"The Germans would never try to conquer America!"

Take the English navy away for a few weeks and see! Germany has announced her dream of world power. Is America isn't in the world, where is it?

These are a few of the Type A lies.

Of the other types are the following: Germany is unbeatable; so why go against her? We will never get troops to Europe in time. We can't equip our soldiers. We can't feed our soldiers. Germany never intends to attack us here so let's keep our troops at home to defend us when she does. If we must choose a machine gun for our army, let us pick one that isn't invented yet. We must have free speech; it is better to have people talking than doing things.

Germany undermined Russia with lies. Germany undermined Italy with lies. She is trying to undermine America with lies.

Don't be fooled. America has, and is, mobilizing, equipping and drilling troops. She has sent and is sending them to Europe. She will give 'em plenty to wear, plenty to eat, plenty to shoot, and plenty of guns to shoot it in. She is building a gigantic fleet of airplanes. She is building a great fleet of destroyers and adding to her battleships and cruisers.

America is going to make the world safe for democracy. The president has said so, and the country has said so, and they mean what they say.

Tag the German lies for just what they are—German lies.

Use your head! Don't be fooled!

In spite of the unsettled conditions, the total American trade with Russia amounted to \$438,000,000 in 1917, a decrease of only \$39,000,000, as compared with 1916, according to an announcement issued today by the bureau of foreign and domestic commerce, department of commerce. This decrease was in the trade with Asiatic Russia and is attributed to congestion and import restrictions at Vladivostok.

PERTINENT PARAGRAPHS

The Arizona State Bureau of Mines has received a new consignment of moving picture films largely from the Y. M. C. A. industrial department, to be distributed thruout this state to the various organizations desiring free moving pictures and already many of the organizations are giving regular service. The new list consists of the following films:

Transforming a Bale of Wool, 1 reel.

The Electrical Education of Mr. and Mrs. Thrift, 2 reels.

From Main to Corn Field, 1 reel.

Building Roads in Military Cantonments, 1 reel.

Workmen's Tools, 1 reel.

The Evolution of a Stenographer, 1 reel.

Making Time.

The film from Main to Cornfield is an extremely interesting one illustrating graphically the geological formation of coal bed, the mining of coal, manufacture of coke, the making of the by-products, the manufacture of ammonia and the uses of some of the by-products principally the use of sulphate ammonia as a fertilizer.

It is anticipated that within a short time practically every high school and Y. M. C. A. in the state will be equipped to handle the educational and travel film service of the state bureau.

Corn bread sticks are a new substitute for wheat bread on wheatless days in many El Paso homes. One housewife received a baking pan from a friend in Kentucky in which 12 sticks of corn bread could be baked at one time. These, when done, are the size of a stick of old fashioned sealing wax and practically all crust, claimed to be the best part of corn bread. Other housewives, after sampling the corn bread sticks, sent for pans and now many El Paso homes have "liberty sticks" as the corn bread sticks are called here, served on wheatless days.

Food Talks By the Steward—By way of making wheatless days run smoothly, the steward of a hotel in Bismarck, N. D., has established the practice of stepping into the dining room during the lunch hour and making a brief talk to guests, telling what the food administration expects of hotels, and what the hotels in turn can ask of their patrons. This has resulted in hearty co-operation.

James Nelson, tried in the superior court here charged with dynamiting and robbing the Santa Fe ticket office at Parker and acquitted on February 5, returned to Parker on the 18th, according to the Post, and the officers believe, dug up the booty he is alleged to have stolen from the safe on the night of the robbery. Nelson arrived in the night from the west and left soon after on an east bound train. Quite a number of witnesses for the state included B. B. Rea, L. McGee, P. Rivers, B. B. Brown, E. Bell, Deputy Sheriff DeSpain of Bouse and Constable John Roberts of Parker, who made the arrest. Nelson had in his behalf the testimony of H. Strohm and Jim Nelson. The Post says no direct evidence was produced at the trial.

Professor Remy, long principal of the Shadyside school, has forsaken education pursuits for farming and signed. Miss Louise McClure, formerly his assistant, a Yuma girl and graduate of the Tempe normal, has been selected to succeed Mr. Remy. Miss Georgie Tomlinson Hall will assume the place of assistant.

SUMMONS.

In the Superior Court of Yuma County, State of Arizona.

Bertha Belle De Varies, Plaintiff, vs. Marion C. De Varies, Defendants.—Action brought in the Superior Court of Yuma County, State of Arizona, and the complaint filed in said County of Yuma, in the office of the Clerk of the Superior Court.

In the name of the State of Arizona, to Marion C. De Varies, Defendant. Greeting:

You are hereby summoned and required to appear in an action brought against you by the above named plaintiff in the Superior Court of Yuma County, State of Arizona, and answer the complaint therein filed with the Clerk of said Court, at Yuma, in said County, within twenty days after the service upon you of this Summons, if served in this said County, or in all other cases within thirty days thereafter, the time above mentioned being exclusive of the day of service, or judgment by default will be taken against you.

Given under my hand and the seal of the Superior Court of Yuma County, State of Arizona this 23rd day of Feb., 1918.

H. B. FARMER,
Clerk of said Superior Court.
By ELEANOR DUNNE,
Deputy Clerk.

Sentinel 4 w. First Pub. Feb. 28, 1918. Last Pub. March 21, 1918.

KEEP SWEET AND KEEP MOVIN'.

Homely, phrase of our southland bright—

Keep steady step to the flam of the drum;

Touch to the left—eyes to the right—

Sing with the soul tho' the lips be dumb.

Hard to be good when the wind's in the east;

Hard to be gay when the heart is down;

When "they that trouble you are increased."

When you look for a smile and see a frown,

But

"Keep sweet and keep movin'."

Sorrow will shade the blue sky gray—

Gray is the color our brothers wore;

Sunshine will scatter the clouds away;

Azure will gleam in the skies once more.

Colors of Patience and Hope are they—

Always at even in one they blend;

Tinting the heavens by night and day.

Over our hearts to the journey's end.

Just

"Keep sweet and keep movin'."

Hard to be sweet when the throng is dense,

When elbows jostle and shoulders crowd;

Easy to give and to take offense

When the touch is rough and the voice is loud;

"Keep to the right" in the city's throng;

"Divide the road" on the broad highway;

There's one way right when everything's wrong;

"Easy and fair goes far in a day."

Just

"Keep sweet and keep movin'."

The quick taunt answers the hasty word—

The lifetime chance for a "help" is missed;

The muddiest pool is a fountain stirred,

A kind hand clenched makes an ugly fist.

When the nerves are tense and the mind is vexed,

The spark lies close to the magazine;

Whisper a hope to the soul perplexed—

Banish the fear with a smile serene—

Just

"Keep sweet and keep movin'."

—Robert J. Burdette.
